14 GITHUB REPOS FOR DATA ENGINEERING

1. Data Engineering Zoomcamp – Alexey Grigorev (DataTalksClub)

https://github.com/DataTalksClub/data-engineering-zoomcamp

2. The Data Engineering Cookbook – Andreas Kretz (Learn Data Engineering)

https://github.com/AndreasKretz/Data-Engineering-Cookbook

3. Awesome Data Engineering – Igor Barinov

https://github.com/igorbarinov/awesome-data-engineering

4. Data Engineer Roadmap – datastack.tv

https://github.com/datastacktv/data-engineer-roadmap

5. Data Engineering HowTo – Adylzhan Khashtamov

https://github.com/Adylzhan/data-engineering-howto

6. Data Engineering Practice – Daniel Beach

https://github.com/beachmachine/data-engineering-practice

7. Data Engineering Wiki – Data Engineering Community

https://github.com/DataEngineeringWiki/awesome-data-engineering

8. PySpark Example Project – Alex Ioannides, PhD

https://github.com/alexioannides/pyspark-example-project

9. Awesome Open Source Data Engineering – Gunnar Morling

https://github.com/gunnarmorling/awesome-opensource-data-engineering

10. Data Engineer Nanodegree Projects (Udacity) – Amir KROUDIR

https://github.com/AmirKROUDIR/Data-Engineer-Nanodegree-Projects-Udacity

11. Google Data Engineering (Coursera) – Steven Black

https://github.com/StevenBlack/google-data-engineering-coursera

12. DataCamp – Data Engineer with Python Course – Franco Ortiz

https://github.com/franco-ortiz/datacamp-Data-Engineer-with-Python-course

13. Data Engineer Portfolio – Anh Tuan Hoang

https://github.com/anhtran0410/data-engineer-portfolio

14. Data Engineering Project with HDFS and Kafka – Ahmet Furkan DEMIR

https://github.com/furkandemir/Data-Engineering-Project-with-HDFS-and-Kafka
